# Sakai Style Guide Used in Real Life

- build a new wireframe mockup
- use labels for interaction behavior and CSS coding
- the SG hi-fidelity wireframes HTML/CSS

## **Sakai Style Guide Demo**

Marc Brierley  
Stanford University  
brierley@stanford.edu

# Building a New Wireframe

- start with existing "view" or "UI component" wireframes (using OmniGraffle or Visio)
- take the parts you need (refer to SG rules)
- modify to fit your design

# The SG - HTML/CSS Connection

- all new 1.5 does and 2.0 UI will use a common CSS stylesheet
- its style classes correspond to the SG wireframe "views" and "UI components"

# High-Fidelity Wireframes (HTML/CSS)

- <http://www.sakaiproject.org/hiFiWireframes/>
- guiding principles: semantic mark-up and accessibility
- another way to ensure common look & feel
